Story that'll give dreams and
healing moments.

4 jigen spot

Ground ball in the middle of the day are warm to 1 April.

From sneakers human, CD deck accessories cute little stuffed animal fell off the Butsun while you are walking.

CD deck, go into an elephant no one in the manner that pull on the fishing line. Pin Light of light of the sun, was stopped at the place where it hits.

I move around the floor of the tree that has accumulated dust-free angel is making fun of rat. The dull and energy-~I Tsu.

Thriller Michael flows from the CD. Dust in the room create the shape of a human in many places, it came out eerily like a zombie that revives from the grave. I dance the dance.

I do the moonwalk.

From Thriller, the music suddenly changes to tango, from the field of dance contest near the center, first floor, went to the ball changed to use the whole soon.

Puchimatchi stick pair of colorful monopolize the floor.

te, te, te, chul, chu, chu,

te, re, re, te, re, tere.

The Takare phosphorus matchstick write a circle in the end before, it was set on fire.

The rendition of the fire in the camp, it portrays a picture of Mona Lisa on the floor, to greet the end.

The breeze of the moment, ash painting, regained the silence of the day-to-day and lost, also elephants.

The children's room, the train had made tree stuffed animal or doll Licca-chan and game set of dolls and other soft hero and monster dolls and soccer ball, and block of the plane were lying without a lot of foot stomping.

Music box of "cha-cha toy" and Ri ~ that slow suddenly begins to sound, stuffed cute train with the roundness that was in a corner began to shake and wobble.

Train with the rounded, will go, I shrank the unit of electrical resistance and Hyoko~tsu to Ω (ohm) like. It went on to come in front of the eye and Kunekune with stretches or become ohms caterpillar like the feeling Penyo~tsu, and Penyo~tsu.

I disappear to the other side of the wall.

However, the caterpillar train, yarn mischievous friendship of the toy society invisible was attached. Fan you Squiggle a dance likes to have as substitute for, came.

Foundation neck and a break dancing little by little, I was enjoying a brilliant foot step. I or you can turn into a tap in the middle part.

Hold the floor with arms, step floats in the air.

It was a farewell to hat like by removing the radial network of safety for the right hand.

Throw rotating propeller is not impossible, aircraft, became a float upside down.

Electricity down to let the thought "goodbye", per dims. Production by more.

Fan of upside down sparkling star pattern, I created a starry sky on the ceiling.

Milky Way, shooting stars, constellations, star group · UFO! ? But, to draw the universe. Will spread.

Was transformed into a celestial aurora image moves by the wind to turn wall ceiling, four-way, such as the floor and I think either.

One side was the Antarctic. There were penguins and polar bears.

I also became a pond. Koi colorful seven animals were swimming in. Was fascinating.

After a few minutes, the curtain is closed to fade out, and returned to a normal environment.

The long-awaited summer vacation, their parents hot summer and our children had to go to the beach to the sea together.

Around the day, it was a house to raise the incense stick to your altar, Aru and also your offerings. Mosquito coil spiral was placed on the desk of the same wood near the center always. During the day, although he Aru closed towards the corner.

Imperceptibly, wispy smoke rises near the center. Mosquito coil of clear appears below. Spiral incense is clear, no longer disappear wispy smoke and at the same time stick to the ceiling.

Drop a drop of fell toward the floor from the hollow. Saturn made a circle on the floor brink, red sun, and blue earth, small drops fell on the floor at the end.

From FROID cushion over the tea, one side is switched on the water bluish. Ripples will spread on the surface of the water.

Ripples of another circle went to be able to water without thinking much about it by the time the ripples disappear. Sun greenish children like painted on the surface of the water appeared.

Kappa with overhead dishes made preparations to face the surface of the water. From above, egg oval came down somehow. It had changed to UFO and white clouds above and also have been distracted by the egg.

Music box a cappella duet, "Turkish March" of Sachiko Yasuda Saori Yuki and singer flowed every time you return the eggs in the top and bottom.

Turkey is played march to be healed in the living room without a human being swept away in the wind, I disappear outside.

(Even I ···?)

(~ Even I ···?)

Tilt the voice of the heart in such guys, I listened.

Throughout angel ··· God, I thought and I'll come true. The world of dreams.

Even as tired, and was supposed to clean.

(Wow I'll grant a wish for you)

"Oh, you 'll come true for real.. You Tsu of a angel"

I wield a conductor like a magic stick.

Objects filled with pattern and those with a color, the thing that contains the pattern, it is washed clean in the washing machine tainted all, it is dehydrated and dried to each other.

Wish it, was "to fly in the sky fun".

Is always, work closest, it takes a human sweat on the ground, become dirty, it will become stinky. So I was talking to say without hesitation in peace to relieve stress, you want to fly.

Command is rejected, it is surrounded by a curtain of bath towel Aru aired together, magic is applied to the socks.

BGM and the rear-emission flows as bells on New Year's Eve at the end Piyopiyopiyo, Nyao, and Nha-tail.

Is it attracted to the voice of cheep! ? Snake appeared without, and from where.

I spread the wings naturally. However, the snake, it was not Dragon Gold. I go up to the top gradually as there is a roller coaster of a pyramid.

And was robbed the curtain of bath towel.

Dragon disappears, organ of the pattern of socks were floating through the air bath towel at the same time as fall and fluttering. The be many stand by alter ego, it has created a form of abacus ball.

Socks are arranged neatly, and cut into butterfly type, pattern is given, Viano song of healing of Ryuichi Sakamoto (ten ten te te te ten ten), abacus ball at the same time flows! ? Butterfly went scattered around in all directions from around naturally. The socks butterfly dancing in the air enjoying the time of the dream by changing the color and size of the blade, was in the room of a room.

Socks and who became a beautiful refreshing, it's down to the laundry pole to shine, the angel, it was visible.

One group was about to make the entertainment.

And Chibi to high toothpick and let Cho was fat, came out to walk it all together in dressed like a floor exercise.

It stops to make one column in the center.

The three roll except, there was nothing.

Drumbeat little by little will.

I grab the stick invisible toothpick Taka-tall put out both hands. "By"

Made right beside, you go up above with a shout out to be "by".

The Cho was fat also put out his arms.

I went climbing lying kicking in the air both feet Grasp the pole invisible.

Chibi also turn up your sleeves, put the Cobb small arms, to grasp with both hands the stick should not, lie, is made right beside with toilet paper of three pole kicking with feet on air, showing the air carp kicking the air I played Te.

Music box I feel such joy flows.

It's "theme song point lol" is liked by everyone.

P Te~tsu Te~tsu Ten Teketeketeke,

On page Te~tsu Te~tsu Ten Teketeketeke

It was was kicked in the leg three roll both air at the "Te~tsu Te~tsu" of.

From our equipment around, I get a lot of applause. Get. Morau. It was a storm of applause.

When I used to touched figure to go work hard to overcome the drawbacks of higher exposure to cheer on our equipment

Was considered.

I think impressed transmitted to the power and partner with more than effort, yourself, and it's great.

And he 's got a certainly in everyone. I Let's challenge to be outdone. Hey.

Wind chimes were distributed in the tray around the town on August 15 is waving in the wind, I had played the sound cool in everywhere.

However, from its tin, tin decorated in old Chadansu capped the dust that was old in contrast was ordered to form the alignment many.

Go, Gogo, Gogogo, Chadansu shakes, things fall. The break glass things, crockery or hit, or might fall. Parin, Ballin, Basshan ...! ? It is Wali on the floor, and Ru-if-La Chi.

However, the power of something what did join! ? Did you took! ? · · · . In disappear when you go lifted at a height thing which I scattered with broken, moving, playing. What is floating, it will disappear, broken the rhythm move, and play were being recycled.

Bell eight are arranged in clear distinction. Has a personality to each, and crash around like smoke the color of the original bell, go aflame. I went twirler invisible and tiny little umbrella Folded in front of the eyes past.

Bell begins to dance and fro to like unfamiliar to ballerina like a toddler. Go to heal the household goods by playing the "Edelweiss" in the inner skirt and baton in eight. Ederuwa-chair, Ederuwa-chair, low singing voice! ? It seemed, but it sounds beautiful voice of an angel that is easy hear, went echoing in everyone's mind.

I open both legs to float in the high jump step with clean fingertips. "Edelweiss" disappears, it changes to "Swan Lake" for a moment. Pin Light hits, bells from the following to Janbu to the next, it was moved to like looking at the comics.

Color is gradually changed, eight animals becomes swan One Animal, and start dancing the "Swan Lake". I play the Swan Lake dress-up. Struck me is daily life supplies all goods there is no movement and voice, to the left to the right → ← is shaken the body.

When fun, I went on behalf of the memories past. Or from when, Jenka flows out of the finale. The written test Tekette ~ ~ and ~ ~ Tererere Rerrerre~tsu, Let's, kiss, cheek, Everyone had put both hands on the shoulders of the previous opponent.

Right, left, front, back, before, before, before, I went dancing people having fun in the sense of rhythm recognition. I disappear from the screen and one by one,. Of course, shaking hands with a smile.

Is selected Once upon a time, buy I like. Clean carpet that has been used every day.

Expensive carpet that had attracted the eyes of the people to ensure (carpet). Was popular.

Now, it goes black, hair carpet is crushed, slice, it looks even without dirty and faded, it was supposed to leave it in my bedding on the floor made to the place let alone purchase, taken the processing fee as garbage. I was attracted eyes with a different meaning. The (see also miserably to figure)

While drawing a helix and that Ri ~ moth-ish brown big bad color-fluttering, fluttering ~, fat (but) is slowly from belching black ceiling came down.

While danced the dust of the floor and landing.

Moth was not dirty, back-or-was-if-you wings Yurarito swaying.

It was visible as if drowning at all.

Batatsukaseru, the repetition was also followed by, stopped and fluttering as if tired.

And, do you have exhausted · · stopped flapping finally, life is what runs out! ? · · ·

! ? · · · Was performed by being sucked quietly on the floor.

Feather of a small two floating in white as opposed to sinking.

The one that seems much transparent face! ? With both hands! ? Both feet! ? But it was around the feather.

The ripples spread round like water in every time passes the floor together with its operation, was carried out gradually changed.

I was on the floor of Nazca picture of panda-like black and white.

At first, it was visible strange, but there was a prettiness of the original you get used to.

Ball of skeleton of volleyball has a big to come down slowly there, and hit the floor, the Spring over, disappeared.

Once in a while, English single letter was written.

L O V E I o v e M E d o.

You no I love you.

It hit the piano artistic every time a character is falling on the floor, I was on the idea that music box that was slowly flows.

The famous ball on the theme of love, such as Dreams Come True "Love Love Love", the song will continue to flow in sequence every time you fall.

One ball goes out of bed while it is playing.

Stop time, frame-by-frame state, time is back.

When from the world over there, and came back to the world of this Spring over, I was going back to the carpet is not dirty.

Ball disappears in the air, I was back in a quiet world of the time. A grain of dust! ? But I come down slowly from the ceiling.

Cry in the dark midnight, one space of the circle only was bright.
World like watching a dream had spread.
I had enjoyed everyone is watching · · · ! ?

Some of the circle, there was a small circle another If you have a closer look well.
Ring next as if you were the phosphorus Bow dance ball double.

Some of the inner circle, there is a circle of triple vertical, in jail like stylish, under, there was a foot of seven colors of this as octopus.
It was coming slowly falling ball here and there, such as the ball is transparent like soap bubbles on the floor packed with the room from the ceiling.

Depending on height, color changes, sound seems to go different.
Hand to light, such like "game hitting mole" at hand! ? Ball up, down, left and right to the light that you attach lightly, then warp in all directions, overlap and light, put out the sound.
The warp by moving moment disappearing rapidly, go overlaps the light.

It hit the cymbals and drums the "drummer yakuza" Ishihara Yujiro a feeling reminiscent of the lightning of the room in a bright though, it has been played in rhythm with the force, such as visible stick invisible.
I go played Matsutoya Yumi also "It Spring". Repeat Play ~ ~ etc · · · .

Rattus norvegicus dirty you've been doing that bad until now or from when, one animal who came from somewhere had seen cross-legged in the middle and don it.
The Miiri in full, it was swallowed.

For walked shaking shoulders aspect rat fellow new on the hump Fute what animals also many animals gradually, sat down and wham, it is allowed to sharp your eyes and sit down and bang.

I was attracted suspicious, the new guys we fear people.
However, the inner surface, had been cleansed heart unlike appearance.
Again, bad guy from the core, did not seem well.
Again, the location of the mind and judgment of each is difficult. · Let's take a change

In this space, was not echoing sound one quiet.

This room which is based on the white! ? The, there was nothing, and it was also like a campus of drawing paper painting. Flat, there is no depth ...! ?

Suddenly, black gloves appeared and pom-poms to move the hand with a meat ball dogs and cats are playful. The power of expression the human body without gloves of two or open, or grasped, or the finger action, you can increase the what would not, or down, or pull, or stop, with or contracted to like have a pantomime It will make it with.

(Person is present · · ·?)

Tsu hand, hand Tsu, Tsu hand, 4, BGM × Tsu hand began to flow into the room.

I slide into the moonwalk, press the black seal in the air, shoes with a rounded black came out.

They traveled created a stage of Michael Jackson "Billie Jean" is in partnership with pantomime.

Ruins of old, faded naturally to complement the new mark for when there are no more.

You are the moon walk, but the footprints will be smaller, we will draw a depth to white campus.

I will leave a mark in all directions left and right upside down.

Depth disappears in a place where, I express, to disappear, to express, to draw a footprint in the wheel like a mouse, and warp, will continue to dance performance a musical circus + Magic.

Becomes a black spherical black ink to cell division, footprints, was scattered small.

"With you" of the uterus and Ayaka flows in Viano sound slowly.

Where white gloves and a ping-pong ball is hit the piano, and played the sound, to tell against the cry of the soul and the intensity of the sound to the performance, it was gone the mix performance art by changing the speed and size and color by the sound was.

In addition, it begins to walk towards the future.

Hair types and colors, form a different color · \angle · vinegared · ξ · \subset · \sim and over-is, had fallen on the floor spread of ruins absent of people.

Is made along with the dust, it was dirty. Was not dirty.

From somewhere, and floating through the air thick and short stick to "Kin-chan run" like, to come out while shaking, wrote a letter in the air.

"Showtime Start?"

Hair! ? But, it runs on everywhere! ? Was.

However, the line is thin and visually, it was the state that what is not known somehow.

From the top, black rain came falling like Niagara. Room during become Makkuroku.

Fish from weak fish is strong, making the oval hair off a fluorescent color variety (like ball of fish) bait ball to protect themselves, it was turning clockwise.

I was building a future electric and fluorescent light a living moving up and down left and right.

You can change the rotation, or blink, or change the form, or to the coalescence and separation.

I became dark again also, and.

Is it stopped, do you finished, darkness with no perspective for a long time was followed.

Small point small appeared near the center.

While shaking slightly, and increases the light slightly, it became big.

Feeling light is scattered, spread the delicate lightning everywhere, and it fade away represents a wide variety of colors forever! ? I go followed.

However, it was silent.

A similar pattern was made and also close periodically.

It was reflects the world have never seen humans.

It was a work of art that you return to the child when it comes to summer, is art dots and lines of light, with concentrated color and, what was seen from directly below the sparkler you can see, had been depicted.

It was beautiful clean much be the memory of a couple of summer.

Sound should not hear remains to mind ... admire ... hear.

I was not alive! ?

I had finished my work of a lifetime! ?

Garbage! ? The place here, was that is determined, of debris.

Fractionated! ? Mountains was making mountains.

Darkness changed the eerie around when it comes to evening and night, and alienated people. Attendance time of terror king.

However, in the gray zone, it was hanging Rally is performed.

Hundred's, please enter your. Fry our Bideatepu and mobile, DVD broken had a jump rope fun vine tree.

The turnover, playing to fly.

Waste of adults began to recreational and athletic meet as if it had returned to the child's mind.

The commotion began happily put out the laughter and smile with such a tug-of-war and defeat bar and obstacle relay.

Is in, act or cheer, or moss, or scraped and was also seen.

Put the lubrication oil and alcohol, to become comfortable, and a conversation in those who do not know each other, and set the shoulder, and became friends.

I made a promise and foolish talk.

There were also skirmishes and mouth cost and arm wrestling, but the stress divergence, it was home away from home anyway.

Any guy that does not match of the mind, any guy who does not like, you can fight a few times, if you or injured each other, still, it was mind to toss understand somewhat.

The committed exclude the presence of each other, the shared committed.

Time, might have taken, but I became a fellow. I became a partner in crime that pain is known.

Now, I do not want to say it is a close friend.

Friend has increased.

The night with the open, or soul mate, was scattered.

You can also go to an appointment.

I tried to call him everyone growled, was Funba~tsu, "Mmm ...?", "Un-, un-...?" He said.
Mmm whiff of tea, Well sound, was massaging it around with ~, to voice.

Was known as "WC" toilet. After finishing the work happily in a bath, poop and ammonia, had accumulated.
As it were to human beings, it smelled of dirt without.

But God, me watching over gently.

". 3.2.1 ... snap you'll shining only once now. Guys, sound ring the finger to cheers for good work"

Filth, white in an instant! ? Skeleton you! ? It becomes, issued a shine.

Was like a jewel.

"Cache ...?"

"Cache ...?"

Shoe, user, Zaza~tsu.

Angel of 10 centimeter in transparent tics come and skate a hollow, air! ? Different space! ? It was the place
you are having fun playing with Capitan Capitan to make the white fog about adding an edge to.

Abegg! ? Herring roe in our dozens of animals in the ear ... everywhere the position is to make the fog, it was
the play intently and to glide.

only moment that fog can be, rainbow of crystal type of snow or heart-shaped and perfectly round type was
from enjoy.

Why rainbow of various forms is a can do, there was something strange strange.

But it was one of the sports where there is fun no matter what what the next occurrence.

decoration of fog has been made everywhere, while disappear down and went to fall.

It was feeling like a winter snow of the human world though.

In addition there seems to be sometimes, "loser", surprised the angels let a big sound like firecrackers and
paan without the video! ? I was also amused to let be.

It was that of a lad playing kid named "mischief Nymph fog".

Also the end of playtime, angel, disappear and sound Pachin~tsu along with sound, the fog disappears, the
crystal is gradually falling, I went back to the world of the original human.

The poop, source of fertilizer plants and fruit, he 's do have to take care.

I have to cherish even slight fun given time.

The thought, I tries to continue to have full heart I made many.

Chan Chan, Ri-I-get.
